**WeRateDogs Insights for Dogs lovers**

WeRateDogs is a Twitter account that rates people's dogs with a humorous comment about the dog. These ratings almost always have a denominator of 10. The numerators, though? Almost always greater than 10. 11/10, 12/10, 13/10, etc. Why? Because "they're good dogs Brent." WeRateDogs has over 4 million followers and has received international media coverage.
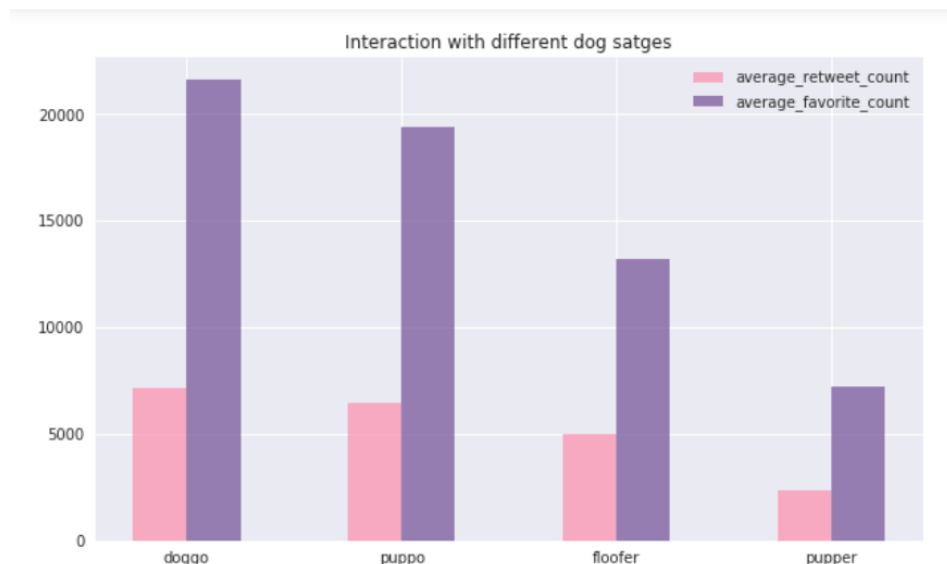

1. **Which is the most frequent dog breed in the tweets?**

The most frequent dog breed mentioned in tweets is defined in terms of dogs count in the figure "golden_retriever" type is the common dog type in this dataset where are 263 dog from all types of dogs.

2. **Does the type of dogs affect the interaction?**

The interaction is usually defined in terms of favorites and retweets. In the bar below, there's evident that dog type affected by average count of retweets and favorites where we find that the breed of "doggo" got the highest average retweet count and highest average favorite count

3. Does dog type affects on favorite counts ?

As we can see from below diagram the type pupper are getting lower rates than others types where whereas their median is lower so we found that dogs types affected by favorite count
